

Break My Heart

Nathan Zwald

Your cleansing fire it burns me
I can feel it raging all around me
From my darkness I reach out comfort me, comfort me

Break my heart oh God
Cleans my soul oh father
Teach my (this) heart oh God
How to lean on You
How to trust in You

You've burned these idols all around me
I lay my earthly treasures down before thee
Make my heart more sensitive to see
All You have for me, all you have for me

Through this valley I am traveling onward
I know I'll make it to the other side
Where shall I go if I can not go forward
Refined as a Holy and spotless bride
